PROFILE

Daniel Elinder specialises in alternative investments and fund formation. Daniel regularly acts as an advisor to larger financial institutional investors as well as well-known management teams and family offices in connection with their investment activities. Regular assignments include representing institutional investors in Europe and in the US within the asset classes venture, growth, buyout, infrastructure, private debt and real estate. Daniel also has experience of acting for management teams in the formation of alternative investment funds and investment structures.

Daniel has more than 10 years of experience from one of the largest asset managers in the Nordics with special focus on fund investments, co-investments and secondaries transactions within the private equity sector.
